Job Summary

Under the general supervision of the Director, the employee serves as the City building inspector. The employee provides and manages the functions associated with building licenses and zoning. The employee reviews and issues building permits, reviews construction documents for code compliance, performs general building inspections on existing structures and develops projects within the City. The employee investigates reports of un-permitted work being performed in the City; advises local officials, economic development professionals, and the general public regarding the use and code compliance of existing structures. This is a highly responsible job. Latitude in making

recommendations and decisions based on inspections, consultations, and on-site evaluation and measurements, is afforded this employee. Work is usually performed in accordance with well-defined procedures. This job classification is identified as safety-sensitive and is subject to pre-employment background check and random drug screens.

Essential Functions

ESSENTIAL FUNCTIONS: The following list was developed through a job analysis; however, it is not exhaustive and other duties may be required and assigned.
